

Webinar for UIIA Equipment Providers Understanding UIIA Features and Functionalities

Make sure your company is taking full advantage of the various features, functionalities and value added services available to UIIA Equipment Providers (EPs). Please plan on attending an upcoming webinar that will identify and demonstrate how EPs can expedite daily requests relating to UIIA MC interchange status information. Experienced UIIA staff will be on hand to overview and walk EPs thru the UIIA application and also answer any questions.

By attending, you will learn:

- How to check your company's requirements under the UIIA
- Understand the information available on the MC Search Screen, including updates to MC insurance for renewals
- How to enter waivers for specific insurance requirements for individual MCs
- How to manage cancellations/reinstatements of MC interchange privileges
- Reporting functionality available through the Web Report Generator
- What automatic notifications are provided to MCs through the UIIA
- How to update your account information online
- How to download previous versions of your company's UIIA addenda
- Process for submitting changes to EP addenda
- Terminal Feed Service – value added service to have MC interchange status sent directly to facilities your company calls at
- Benefits of the Intermodal Driver Data and Driver Lookup Service

DON'T DELAY ... REGISTER TODAY FOR THE WEBINAR BY CLICKING ON THE CORRESPONDING LINK BELOW

[NOTE: THE SESSION WILL LAST APPROXIMATELY 90 MINUTES. There will be a Question & Answer session available for EPs at the end of the webinar session]
