Future Intermodal Leaders Mentor Program

Developing the Talent of Tomorrow

IANA has established the Future Intermodal Leaders Program to guide, engage and encourage professional advancement through education, networking and mentoring.

**Program Focus**
Education, Career and Leadership Mentoring. The mentor program is a one to one relationship between the mentor and mentee.

**Goals**
To provide guidance to mentees on items such as:
- building industry knowledge
- career exploration and development
- understanding corporate cultures
- organizational management
- soft skills and relationship development
- networking opportunities
- leadership development
- work-life balance

**Expectations**
Each relationship is to be personalized between the mentor and mentee. Once mentors select their mentees, they will develop a plan that outlines goals/objectives and an action plan. Mentors will periodically be asked to report progress to IANA and to share their successes. Mentors also may be asked to assist in developing activities within the Future Intermodal Leaders program for its members. The mentor program is not an opportunity for employee recruitment.

Participating as a mentor helps to further professional growth in the next generation of intermodal leaders by sharing your knowledge and experiences.

Please fill out the information below if you are interested in participating.
